

### Year 6 Consultation Comments – Year 7

I do not feel that any first school could offer the curriculum variety, facilities or expert staff that a middle school could.

*Although this is not my catchment school for my children, I have definitely seen the benefit of my son joining Middle School in Year 6 and the facilities and staff that made this happen so easily and positively. I feel if he'd stayed in Primary School it would have held his education back!!*

I strongly agree in middle school education as the teachers are trained in these specialised subjects. If they were to stay at first school in a Year 6, one teacher cannot give appropriate education in all subjects needed for Sats.

*Would like evidence for both arguments.*
